

WELLHEAD PLUG CATCHER

CORTEC is setting industry standards with choke, valve and piping solutions.

Wellhead Plug Catchers

CORTEC can supply a full line of Wellhead Plug Catchers to be installed upstream of a production choke. This device will serve to minimize downtime and prolong choke trim and body life in applications where extreme solids and abrasives are present. CORTEC clients are now utilizing these field-proven devices on hundreds of shale wells offering considerable operational value.

Offered in a range of flange and pressure classes from 5 to 15K, these devices can be configured to suit the needs of any common wellhead application. CORTEC can offer in the field training to ensure proper service and maintenance requirements are met.

The device has been evaluated and sized by the CORTEC engineering team to accommodate significant plugging and still provide full capacity flow. The screen design has been field-proven and designed through consultation with field operators.

Wellhead Plug Catchers

Current Models:

2-1/16" 5k	1-13/16" 10k	1-13/16" 15k
2-9/16" 5k	2-1/16" 10k	2-1/16" 15k
3-1/8" 5k	2-9/16" 10k	2-9/16" 15k
	3-1/16" 10k	3-1/16" 15k
